REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

applicants claim a method for preparing hydroxyalkylcarbamate compositions comprising the step of reacting aqueous ammonium hydroxide and a cyclic carbonate. The novel feature of this invention resides in the use of 6-membered cyclic carbonate in preparing the said compositions. The use of the 6-membered cyclic carbonates displays stability of the composition overtime as shown in the 132 declaration filed on 06/30/03.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
